

# Kaleem Mohammad

## Junior Software Developer

### PERSONAL PROFILE

A confident hard-working individual ready to face challenges as a Junior Software Developer by not giving up, keep on trying until success, always eager to learn new things everyday, work well with others and face challenges together. With a goal of one day becoming a senior software developer and successful in the IT sector. Always fascinated with technology and how technology will always keep us going, I'm willing to make all the sacrifices needed to move forward.
